Education

York University, Toronto, Canada
Computer Science
Bachelor of Science (BSc)

Frontend Developer Bootcamp   **Dec 2022 – Apr 2023**
Frontend Simplified

Experience

Frontend Developer Internship   Apr 2023 - Jun 2023
Frontend Simplified

- Transformed a static HTML, CSS, JavaScript, and React single-page application into an interactive user interface using animations, transitions, and carousels.
- Processed API requests with Axios to dynamically represent data from a cloud server, implementing skeleton loading states, pagination, and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

Freelance Frontend Developer   Jun 2023 - Current
Self Employed

- Delivered two professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript, and React best practices.
- Improved website performance through image compression, caching, and lazy loading.
- Implemented SEO, responsive design, multi-platform compatibility, and hosting support.

Projects

NFT Marketplace | [Website](#) | [GitHub](#)
- Single-page React application with animations, transitions, and carousels.
- Data fetching using Axios, with filter functionality and skeleton loading states, pagination, and dynamic routing.
- Utilized Git version control for collaborative development.

E-commerce Website | [Website](#) | [GitHub](#)
- E-commerce website developed in React, fetching dynamic data from a database.
- Integrated user authentication with Firebase Authentication and user cart management with Firebase Firestore.
- Created a fully responsive design following React best practices and utilizing Firebase and Context API.

Gmail Clone | [Website](#) | [GitHub](#)
- Implemented local emailing functionality using Firebase Firestore database.
- Integrated Google Sign-in authentication with Firebase Authentication and React Redux for user profile picture display.
- Developed a responsive Gmail Clone following best practices for React, Redux, JavaScript, HTML, and CSS.

Technical Skills

Languages: HTML5 | CSS3 (+ SCSS, BEM) | JavaScript ES6+ | TypeScript
Frameworks: React (+ hooks) | Next.js | Redux | Material-UI | Mantine | Tailwind CSS
Technology: NPM | Git | Yarn | React Dev Tools | Firebase v9 | GitHub | Git Version Control | RESTful APIs
